ACMEE 2018

Why To MBBS From Abroad MBBS in Abroad Everything Is Low Package Comparison Of India

- Abroad follows a high standard of education and teachers here are all highly qualified.
- No admission test is required for entrance into most of the colleges and universities of the country. The admission process is very simple.
- Abroad is a part of the Bologna process thus ensuring a certain standard of education .control over quality and advisory councils for supervision.
- World ranking of Abroad universities is high in almost every field.
- Almost all universities of abroad recognized by international bodies and organizations such as WHO also known as AVICENNA directory for Medicine .IMED International Medical Education Directory of FAIMER , UNESCO and AMEE.
- The student who have completed their medical degrees in Abroad are permitted to apply for International Licensing Exams taking place throughout the World.
- Scope of research and detailed study in the chosen subject area is vast in abroad .
- Almost all universities of Abroad have scope for studying post- graduation and PhD thus allowing students to smoothly move from one level to other .
- Guest lecturers and visiting professors of Abroad Universities include globally acclaimed teachers and working professionals who are able to share their vast experience with the young minds.
- Many professional courses such as medicine is offered at much lower costs in the universities of Abroad compared to anywhere else in Europe.
- Cost of living is also low in Abroad A student with a mediocre lifestyle can survive by spending around 100USD -200USD a month .
- All Universities of Abroad Indian cooked & mess (fooding) facilities available.
- The medium of instruction is English in most courses and thus students do not need to learn a new language for admission into the colleges of Abroad .
- The Abroad method of teaching is at par with that of the rest of the world and thus students find acceptance in fields of work as well as places of higher education elsewhere .
- The climate of Abroad is moderate throughout the year thus making life comfortable.
- Abroad has signed a bilateral student agreement with countries such as Finland,Sweden ,Czech Republic and others thus making it easier for students to shift and to study MBBS in Europe.
- A vast country with a variety of landscapes and vibrant culture
Abroad is an attractive destination for those interested in travelling . Students can thus make the most of their holidays by exploring the country they gave chosen to study in.

KYRGYZ State Medical Academy

KYRGYZ State Medical Academy

The Medical Institute at the KYRGYZ State Medical Academy was found in the year 1939 as the KYRGYZ State Pedagogical Institute was transformed into KYRGYZ State Medical Academy. The university has the history of training medical students from different countries. They maintain the highest standards of education and have the reputation of international integrity and academic honesty. The Medical courses are offered in both Russian and English medium of instruction. The medical institute trains students in the

field of pediatrics and General Medicine. It has a teaching hospital attached that is equipped with the state-of-the-art facilities for diagnosis and treating the patients. The library of the Institute is one of its kinds in the country. And it publishes various international journals and other publications.

Overview of the course

It is one of the most prestigious universities in the country. Academic year of the medical courses comprises of one semester. Duration of the course is of six years. The first five years are didactic in nature as students are imparted knowledge on the different areas of medical sciences. They get an insight to the different parts and system of the human body that prepares them for the clinical rotation in the hospital. In the last year, Students undertake clinical rotation in the different departments of the hospital. Through this training, Students have an in-depth knowledge of the treatment procedure.

Bright future prospect

After completion of this course, Students are awarded the M.D degree. Since the university follows the international standards and abides by the Bologna process, students can pursue Post-graduation in different reputed European Universities and other noted institutes in different parts of the

SUCHITA EDUCATION COUNCIL, INDIA

MCI Regulations for Recognition of Foreign Medical Degrees

Prior to the year 2002, Indian students were required to join only those medical colleges abroad which were listed by the Medical Council of India in their schedules. However, it was not feasible and possible for the Medical Council of India to visit individual colleges in different countries to inspect and recognize colleges. Therefore, in the year 2001, the Indian parliament passed a bill to amend the Indian Medical Council Act, 1956, which later became an Act and was subsequently notified in the Indian Gazette. According to the new amendments Eligibility Certificate Regulation, 2002 and Screening test regulations, 2002, (Published in Part III, Section 4 of the Gazette of India Extraordinary issue dated the 18th February, 2002) Medical Council of India, Notification, New Delhi dated the 13th February, 2002 No. MCI- 203(9)/2001, Regn/; Indian students are free to go to any medical colleges in any foreign country but college must be enlisted in WHO. From the year 2002, the former list of recognized medical colleges ceased to exist. Therefore, the screening examination is now required if an Indian student completes his medical course from USA, UK, Australia or anywhere in the world. The Indian student who is willing to enter into Asian Medical Institute must obtain MCI eligibility certificate from the Medical Council of India, New Delhi. And after completion of the course the student who wants to get registration number from MCI has to appear for the Screening test conducted by the National Board of Examinations, New Delhi.

Please note that 'the previous list of Recognized colleges from erstwhile USSR is not valid now'.

Any Indian student who has obtained a minimum 50% (General candidates) and 40% (Reserved candidates) in their Physics, Chemistry and Biology (PCB) in the higher secondary examination (i.e. 12th standard final examination) are eligible to get the Eligibility Certificate.

Student Life

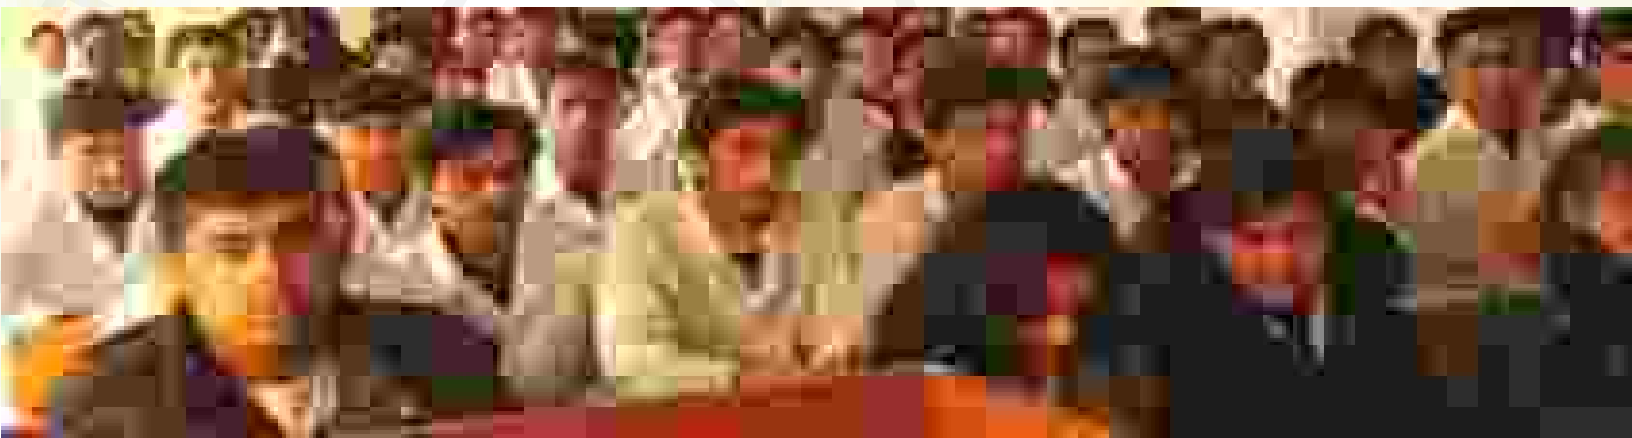

More than 800 Indian students in which nearly 200 girls are studying Graduation Courses at the faculty of General Medicine in Bishkek. The Indian students can work in USA, UK, Australia, Canada, New Zealand and other countries after completing course from AMI. They can also work as Govt. private doctors in India and Senior consultants in corporate hospitals in India. AMI arranges free preparatory class for screening test for MCI from 4th year.

AMI administration has always encouraged and promoted secularism amongst its students. This has been the main reason for communal harmony and peace among fellow Indian students studying at AMI. In order to make student's life more interesting there are all the conditions in the institute to conduct cultural measure. For students of the institute there are all the conditions for leisure, namely sport halls, gym, swimming pool & etc. Institute organizes different festivals, tours, games and encourages students to take part in different study and sports competition. For student's habitation there are such conditions as hostel and separate comfortable apartments with all the conditions.

Foreign students are trained on the contract basis in accordance with the law of Kyrgyz Republic "About the legal status of Foreigners". Foreign Citizens of the Kyrgyz origin enjoy the equal rights as Kyrgyz citizens. All institute entrants enjoy the equal rights independently of sex, racial & national belonging, social and property status, ideology, religion, place of residence and other circumstances.

Every year many national and religious festivals are celebrated with pomp and joy. National festivals included the Republic Day while religious festivals celebrated from the Indian sub continent are Diwali, Holi, Sankranti, Iftar Party in the holy month of Ramadan, Eid, etc.

Our Students Views

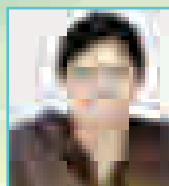

Saloni Kumari

Jalalabad just like pages of book, the more we turn, the more we get. My dream comes true.

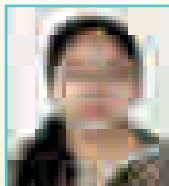

Namarata Kumari

I like my institute very much and I have of course done a good job deciding to admit in AMI.

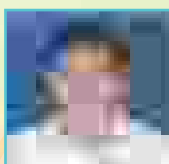

Nitu Kumari

To be a doctor is "hard nut to crack". It's my future that I get opportunity to achieve my bull's eye that A.M.I. every possibility has provided below under a single roof. I am glad to have such teachers & members of Institute.

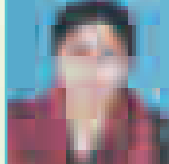

Gulmantasa

I like my teachers very much. They also love me and every time they encourage me. I feel like at home in the institution.

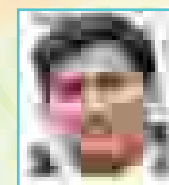

Animesh Noil Kujur

Now I feel, I have got a bright future because I am in AMI, which is on my way.

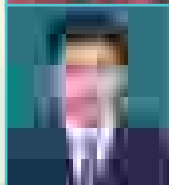

Shalu Priya

The teachers of AMI are not only talented but also very patient. Their love increases us to work very hard.

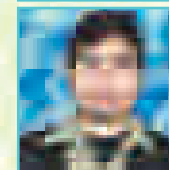

Sridhar

I am very happy that I've admitted to AMI. I like my teachers and the system of education.

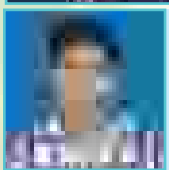

Mukesh Kumar

I like the AMI very much, the teachers, the international department of the students.

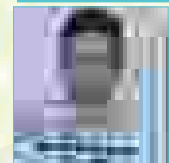

Sunil Kumar

I fill proud to be the student of AMI. AMI will help to bring my dream come true of becoming a good doctor.

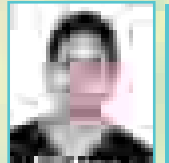

Shivam Chandra

I am proud of myself that I am a student of Jalalabad. I like the teachers and mostly the practical classes, which are very very interesting.

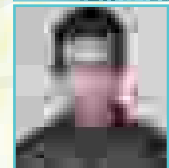

Brajesh Kumar

I fill proud to be the student of Jalalabad. Jalalabad will help to bring my dream come true of becoming a good doctor.

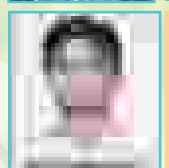

Ragini Kumari

I am proud of myself that I am a student of Jalalabad. I like the teachers and mostly the practical classes, which are very very interesting & I am very happy in girls hostel.

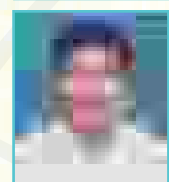

Saurav Kumar

I fill proud to be the student of AMI. AMI will help to bring my dream come true of becoming a good doctor.

Nazran Ali

I am proud of myself that I am a student of Osh. I like the teachers and mostly the practical classes, which are very very interesting.

Minhaz Raja

I fill proud to be the student of AMI. AMI will help to bring my dream come true of becoming a good doctor.

Madhu Jyoti

I am proud of myself that I am a student of Osh. I like the teachers and mostly the practical classes, which are very very interesting & I am very happy in girls hostel.

Parents Views

I am very happy for my daughter Namrata Kumari that she is studying in such a reputed college as Asian Medical Institute. I am sure she will be able to incalculcate the values that have been taught to her under the guidance of her faculty members for her future career

- **Binod Kumar, Father of Namarata Kumari**

The beauty of AMI is discipline and Sincerity. It has all the facilities like library, extra curricular activities for the benefit of my daughter. It has well experienced faculties. The tutorial classes are helpful for clarification of doubts.

- **Rakesh Pathak, Father of Shalu Priya**
